## A Handsome Souvenir.

With its issue of Jan. 6 the BETHEL NEWS puts out its extra illustrated edition, devoted to setting forth the beauties, advantages and business enterprise of Bethel. It is a handsomely printed paper of twenty-four 11x15 pages, with numerous half-tone cuts of Bethel scenes and people. The edition gives evidence that it is not planned on so sordid a strictly business basis as some such papers are, but is intended to be truly and fairly representative of the town and the whole town. Typographically it is equal to the best of the excellent work turned out from the News office, and Editor Bowler deserves hearty congratulations for that piece of work.—Oxford Democrat.

The BETHEL NEWS this week publishes a handsome supplement in magazine form, on fine paper, and richly illustrated, giving the town and its citizens a splendid write-up. There is no lovelier town in the world than Bethel, and its citizens are among the best in the State. All this the NEWS records in an interesting and readable way. The town should be proud of its enterprising weekly.—Lewiston Journal.

The extra illustrated edition of the BETHEL NEWS is one of the best things of its kind we have seen for a long time, and is a valuable and attractive souvenir of the beautiful village of northern Oxford. Its 24 pages are filled with scores of fine half-tones, and the village in all its aspects is well written up.—Kennebec Journal.

The BETHEL NEWS sent out last week an illustrated supplement of 24 pages of which any newspaper establishment might well feel proud. Printed on book paper, finely illustrated and well written, it places Bethel and its people before the world in a most favorable light and cannot fail to do good both at home and abroad. We are the more interested in this excellent journalistic work from the fact that the editor and proprietor of the NEWS was born in Palermo, Waldo county, Maine.—Republican Journal.

Last week the BETHEL (Me.) NEWS issued an extra illustrated edition. It consisted of twenty-four pages, printed on fine paper, profusely illustrated with half-tone cuts of the town's leading men, points of interest and many of the principal buildings. It is a piece of work that any large office might be proud of.—Mountaineer.

The BETHEL NEWS came out last week with a special 24-page magazine section, printed on book paper and embellished with half-tone cuts of people and places in the beautiful and historic town of Bethel.—Mechanic Falls Ledger.

We have received a copy of the late illustrated edition of the BETHEL NEWS, which for excellence of press work and fine half-tones equals any local work in that line we ever saw, and excels most of the work emanating from the large city press. In fact our local papers excel in typography and neat appearance most of the metropolitan papers. Every family should have its local paper first.—Sumner Correspondent of Democrat.

## ABOUT OUR COUNTY.

NEW GRANGE HALL AT SUMNER.  
Union Grange, No. 80, at East Sumner dedicated their new Grange hall on Thursday evening, Jan. 7. State Master Obadiah Gardner was present and assisted in the exercises.

SCARLET FEVER AT MEXICO.  
A mild case of scarlet fever broke out in Mexico last week and the second and third grades of school were closed for a few days. After proper fumigation they were resumed.

ENGLISH MANAGER.  
Mr. Daniel McMaster, who for several years has been manager of the Murray Royal paper mills at London, England, has been appointed general manager of the mills of the Oxford Paper Co. at Rumford Falls.

UNIVERSALISTS WILL DEDICATE AT SOUTH PARIS.

The dedication of the new Universalist church at South Paris will occur this evening, with sermon by Rev. F. W. Hamilton of Boston, dedicatory prayer by Rev. Miss Angell of Norway. Rev. F. E. Barton and other ministers of the state will be present and take part in the exercises.

DIPHTHERIA AT CANTON.  
The little daughter of Mr. and Mrs. Arthur Goding died Friday after a short and painful illness of diphtheria, at the home of her grandparents, Mr. and Mrs. Cyrie Hodge. The board of health has circulated notices and quarantined the house, and it is hoped that no further cases will develop.

CHURCH DEDICATED AT CANTON.

The new Free Baptist church at Canton, built to replace the old one which was burned about a year ago, was dedicated with fitting exercises on Tuesday evening, Jan. 12. The style in architecture is unique and artistic. The vestry is in the front of the building, with the main entrance at the side, the belfry just above. The interior is finished in steel, which is painted white with decorations in gold and bands of red. At the foot of the church behind the altar is the singer's raised platform and on either side are the minister's room and library, to which is an entrance through arched doorways. Handsome opera chairs, chandelier and carpet, make the new home of the society very attractive.

—Frank Grada, an employee at the Rumford mill, Rumford Falls, died last Thursday from the result of an accident while at his work a few days previous.

—Mrs. Jane Morton of Rumford Falls passed her 90th birthday on Tuesday, Jan. 12. She enjoys good health and does considerable work about the house.

—A. S. Hathaway, one of Canton's most respected citizens, passed away on Sunday, Jan. 10, after an illness of several months. He is survived by a widow and three children.

## Cured After Suffering 10 Years.

B. F. Hare, Supt. Miami Cycle & Mfg. Co. Middletown, O., suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says, "One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years, and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble. Sold by G. R. Wiley.

The Talented Actress Finds the "L. F." Medicine Indispensable

"WHILE in your city some time ago I bought several bottles of the True 'L. F.' Atwood's Bile Beans and found that it greatly benefited me. I wish to get some more. I send you my route and several addressed stamped envelopes. Please tell me where I can procure the medicine when I reach New York. I am anxious in the matter, for it did me more good than anything I have ever taken and I must have several bottles right away."—MARY CHURCHILL EMMETT, of "Sowing the Wind" Co.

So Certain, Safe and Reliable that No Other Medicine Can Take Its Place

## The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions. It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

It perfects all the vital processes.

W. F. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well but tired for some time. Before he had finished the first bottle of this medicine he felt better and when he had taken the second was like another man—free from that tired feeling and able to do his work.

Hood's Sarsaparilla Promises to cure and keeps the promise. Accept no substitute, but get Hood's today.

## BROWNFIELD.

This month the Universalist Ladies' Circle has purchased a new organ for their church and the old organ is now for sale.

Rev. Newton Clough, former pastor of the Free Baptist church, was quite badly injured last week by a blow on the head from a stick thrown with force by the falling of a heavy log on same.

Dr. Jacob B. Wentworth has returned to Boston to resume practice there if his health will permit. He has been in Brownfield, his former home and native place, for several months on account of poor health.

Mrs. Mary A. Brown, widow of Ivory Brown, who died in this village last month, was in town this week looking for evidence to enable her to obtain a pension on account of Mr. Brown's services during the Civil war. Mr. Brown was a pensioner at the rate of \$24 per month. He served in Co. M, 31st Regt, Maine Vol. Infantry. Since Mrs. Brown's death Mrs. Brown has been in Portland at the home of her brother, Mr. Josiah Berry.

Mrs. Hiram Seavey has finished working for Mrs. E. B. Bean, where she has been for the past year. Mrs. Bean now has Miss Imogene Lord from Denmark for help.

Mr. Frank Quint has completed the stone work for the tomb at the village cemetery, but will have to defer the earth grading till warm weather. It was to be finished before winter, but bad weather caused much delay in the work. The tomb is now ready for use if needed.

Messrs. John and Irving Hodgdon have put teams to hauling lumber for Misses Giles and Gatchell in Newfield.

The scholars of the Bean Memorial school have obtained large photographs of Mr. and Mrs. E. B. Bean for the schoolroom.

Mrs. James P. Thaxter of Portland has very generously donated about thirty-five volumes of nice books to the library of the Memorial school. Hon. Chas. E. Littlefield, M. C., from this congressional district, has sent a set of the official records of the Union and Confederate army during the Civil war. The set consists of 128 large volumes and an atlas in sheets, giving a perfect view of the battle-grounds, forts and army transportation and flags.

Mr. and Mrs. Wm. C. Rowe are yet in Peabody, Mass., and are not expected home before March.

News was received here last week of the sudden death of Mrs. Nellie Weeks Johnson, wife of Albert Johnson, at Montpelier, Cal. Mr. and Mrs. Johnson were natives of Brownfield, but had been in California several years. The news created much sadness among all their old friends and associates in this vicinity.

Schools in town have closed their winter terms, except the Grammar school and the school at West Brownfield. These schools had each a vacation during the winter term on account of sickness of teachers.

Dr. Marston, who has been very sick with typhoid fever for several weeks, is said to be improving. Dr. Jordan of Fryeburg attended him.

The Keeley Institute in Portland, Maine, on Munjoy Hill, is successfully curing drunks and drug users.

## GRAFTON.

E. B. Farrar has been putting in a supply of ice for O. W. Brooks.

E. J. Brown and son, Claude, of East Sumner, were in town two or three days recently.

C. T. Parker has been at home several days, but we understand he is soon to go to Diamond to scale lumber.

J. E. Brooks has been suffering for several days with a severe cold but is now able to be out again.

Merton Kilgore of Newry has been through town with two four-horse loads of supplies for R. B. Thurston's lumbering operations in Cambridge.

A. F. Brooks is harvesting his ice from Umbagog Lake and hauling to his place here; the ice is very thick and of excellent quality.

The friends of Mrs. Charles N. McInnis of Milton are sorry to hear that she is very sick with heart trouble. We hope she may recover soon.

Dr. Twitchell of Andover was called last week Tuesday to attend A. F. Brooks, who has been confined to the house for several weeks, having narrowly escaped pneumonia.

The breaking-out team passed through town last Saturday, very much improving the condition of the roads. But, however, the constant brisk winds soon fill the track with loose snow in many places, somewhat discouraging the efforts made to keep them open.

Mrs. Jerusha Brooks, who has so long been suffering from a fracture of the leg, passed away last Wednesday morning. Death was some what unexpected; however, she had been failing for a few days, though her relatives did not realize that the end was so near. Mrs. Brooks was in her 92d year, although she has been very active to the hour of her unfortunate accident. She was a kind neighbor and a loving mother, and her loss will be mourned by all who knew her. The funeral services occurred last Friday, at 10 o'clock, and were conducted by Rev. Mr. Potter of Bethel. Interment was at the Grafton cemetery.

## Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is completely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. E. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

## GROVER HILL.

Intensely cold weather and badly drifted roads.

Clyde L. Whitman has employment in the woods at Milan, N. H.

Mrs. Mabel P. Hutchinson has been quite ill but is convalescent.

Mrs. Abiah Bennett has regained her usual health.

Adamson's Botanic Balsam will break up a Cold, Stop a Cough, Alleviate Inflammation, Reduce Swollen Tonsils, Heal Sore Throat and prevent serious complications, which leads to consumption. We have ever. We have ever. We have ever. It never fails. Sold by all druggists.

The Seaport House, Seaport's only hotel, was totally destroyed by fire last Wednesday night. It is not known how the fire originated, but it started in the barn and was well under way when discovered. Proprietor W. E. Grinnell places his loss at \$7,000. Insured for \$3,500.

## THE AMERICAN MONTHLY REVIEW OF REVIEWS

## THE NECESSARY MAGAZINE IN THE PRESIDENTIAL YEAR

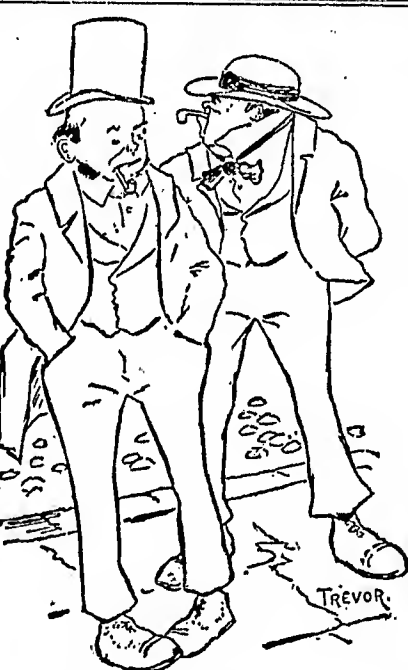

The Review of Reviews is often called a necessity, in recognition of its usefulness in keeping readers "up with the times."

In Presidential election years the REVIEW OF REVIEWS is more than ever "the necessary magazine." Everybody wants to be truly and quickly informed about this or that public question that has forged to the front; to know about the new candidates and personal factors in politics, to have a complete picture at hand of the current movement of history.

In Dr. Shaw's editorials, in its authentic and timely contributions, in its brilliant character sketches, in its condensations and reviews of all the important articles of the magazines, and in its hundred a month of valuable portraits, witty cartoons, and interesting views, the REVIEW OF REVIEWS gives the much desired news of the world's and our own progress. "The World under a Field-glass" is the way one subscriber describes it. Men in public life, like President Theodore Roosevelt, the members of Congress, and the great captains of industry, who must keep "up with the times," intelligent men and women all over America, have decided it is "indispensable."

"Did you ever see worse days than these, Casey?"  
"Oh, did that. When Ol was knocked out at Flanagan's wake the daze then was the worst I ever."

## Reminiscences of "Crowley."

In 1884 Mr. Smyth, United States Consul at Liberia, brought to this country a young chimpanzee, about 17 months old, and sold him to the Park Department for the cost of transporting him. As he came first class passage, the price was \$125. He was named "Crowley," he took to Keeper Cook from the first, and until his death they were the best of friends. He was very intelligent and I believe was as near human as an animal could be. He would sit at a table to eat, putting on a napkin and using a knife, fork and spoon, when necessary. When he finished he would use the napkin, carefully fold it up and lay it beside his plate. About two weeks before he died a severe attack of pneumonia set in, and Dr. Marsh, surgeon of the park police, was called. Every morning when the doctor entered the room he would say, "Good morning, Crowley," and Crowley would get up to shake hands. Then the doctor would say, "How are you this morning?" and Crowley would grin. The doctor would examine him and say, "Your pulse, Crowley," and Crowley would extend his hand. "Now your lungs," and Crowley would throw back his arms to allow the doctor to place his ear to his breast. "And how your back, Crowley," and he would turn his back. He grew very feeble before death and Cook stood by him from early morning until late at night. Late in the afternoon of the day he died Cook held him in his arms for about an hour. Cook put him down on the floor, and Crowley raised himself up, put out his hand to shake hands, as Cook said, "To bid him goodbye," turned toward the wall of his room and dropped dead.—Ounting.

## THE HENNERY.

To push broilers for market feed curd, baked cornbread, made of rather coarse ground corn and wheat screenings, at the same time giving plenty of clean water and milk to drink.

For young ducklings a ration of two parts wheat bran to one each of ground corn and oats, mixed with sour milk until it crumbles, is a good feed. In a few weeks the run of a clover field so as to get the bugs is the best thing for them.

A good wash to kill vermin in the hen house is made by boiling tobacco leaves and stems. With this tea while hot slake a quantity of lime and add sulphur and crude carbolic acid. This will certainly make a most effective disinfectant which can be sprayed into every nook and corner.

Turkey hens are not usually kept for breeding more than two years, although they can be used three or four years with good results. The best individuals might with profit be retained till that age. One tom to a bunch of eight or ten turkey hens is about right. The hens will lay from ten to forty eggs each.

Saved by Chance.  
"His life was saved by a button."  
"How fortunate. Tell me about it?"  
"A girl asked for a button as a souvenir. He gave it to her. Then he fell in love with her and she fell in love with him. They were married."  
"But you said she saved his life?"  
"Oh, yes. His wife would not let him go to war, and the man who took his place was killed."

Overdid It.  
Josephine—Yes, our trip was all right, but we had an atrociously fresh escort.

Geraldine—I thought they had personal conductors on those tours.

Josephine—That was the trouble. Ours was too darned personal.—Pennsylvania Punch Bowl.

## Comrades.

"Please, mum, won't you give me brudder Willie here something to eat?"  
"Why don't you ask for yourself?"  
"Oh, Willie's do soul of generosity, mum. He'll whack up wid me."

Sunshiny days are far apart this winter.

Mrs. Sarah W. Brown has gone to Berlin, N. H.

Miss Grace E. Mason remains in very feeble health.

Lewis Tyler is confined to his bed by illness, and gradually failing.

The sad news of the death of Calvin Bisbee was announced here Saturday.

There is now enough snow on the ground for all kinds of lumbering business.

Charles P. Pingree of Albany is in this village every week selling fresh meats.

Florence Haskell has chicken-pox, and there will probably be other victims of that disease this week.

Joseph Syrett has moved from the house of Mrs. L. E. Bean to what is known as the David Holt house, recently vacated by H. E. Mason.

The weather-wise are no longer predicting a January thaw, but think we are now having the worst part of the winter, and that spring will come early.

### Congratulations.

Mr. John H. Cullom, Editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy."

For sale by G. R. Wiley, Bethel; E. L. Tebbets, Locke Mills; J. W. Bennett, Gilead; H. W. Dennison, West Bethel.

### NEWRY CORNER.

Bear Liver Grange had an all day meeting on Thursday for the annual installation of their officers. The officers were installed by Worthy Master Jerry Martin of Rumford Grange, assisted by Miss Carrie Wight of Newry. Mr. Martin had the work well memorized and addressed the officers in a pleasing manner. He stated that during fourteen years of Grange work it was the only time that he had installed the officers when all were present. Then followed the usual excellent Grange dinner served by the sisters. A social hour, enlivened by the frolics of the little ones, prepared for the music, recitations and readings of the afternoon. To our great regret this meeting is the last in which we may claim Mr. and Mrs. E. Smith of Hanover as patrons of our Grange, since they will join the nearer Grange at Rumford.

### NEWRY.

This community is saddened by the death of a former resident of this town, Calvin Bisbee. He lived with us a number of years as a merchant and postmaster. He also held the office of town clerk and treasurer a long time and was well worthy of the office, too. A man well loved by his neighbors and friends for his many virtues, and many a sick one could testify to the kind remembrance of himself and the dear companion who today is mourning the loss of one who was ever kind and true to her. No doubt there has been already said by others more than I could say of his goodness, but the friends here would just like to say a few words to let the public know we, too, shall miss him, although quite a few years have passed since he moved away.

Don Smith is laid up again with rheumatism.

TO ALL CATARRH SUFFERERS.

Hyomei Guaranteed to Cure by G. R. Wiley or Money Refunded.

The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remarkable remedy that the proprietors have authorized G. R. Wiley to sell every package of Hyomei under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by G. R. Wiley.

Hyomei is no ordinary remedy. It is the only method of treatment that sends by direct inhalation to the most remote part of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs. Breathe through the inhaler for a few minutes four times a day and your catarrh is cured. That's all. If not cured G. R. Wiley will refund your money.

### NORTH NEWRY.

WILL SEND FREE, TO THE AFFLICTED, FOUR LARGE  
SAMPLES OF HIS NEWLY DISCOVERED REMEDIES  
TO CURE CONSUMPTION AND ALL THROAT,  
CHEST AND LUNG TROUBLES.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted than this offer. Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send his Complete Treatment, embracing four large samples, to any reader who may be suffering from coughs, colds, catarrh, bronchial, throat and lung troubles or consumption.

Already this "New Scientific Course of Treatment" has permanently cured thousands of apparently hopeless cases. There will be no mistake in sending—the mistake will be in overlooking the generous invitation.

**FREE TO ALL**

To obtain these FOUR FREE PREPARATIONS that have never yet failed to cure, all you have to do is to write

Dr. T. A. SLOCUM, 98 Pine Street, New York,

## The Cause of Many

## Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney is poisoned, blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

## A CASE OF HEREDITY.

The Kind of Lingo She Had Been Used To.

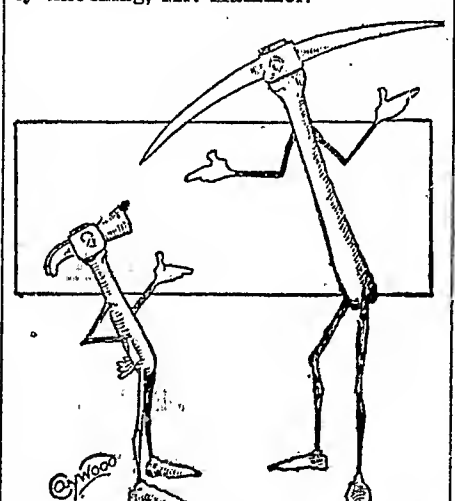

The other day a benevolent old gentleman beheld a little six-year-old girl walking gravely along with a basket on her arm. Patting the chubby tot under the chin, he said: "And where are you going, my pretty maid?" "Give thee good-day, graybeard," replied the midget. "My father bade me to the shambles ale for a fat haunch." "W-w-what?" ejaculated the old party. "Happy thou knowest him—the good man Skidmore?" inquired the tiny dame. "No-o-o," said the gentleman, very much puzzled. "You are a rather quaint little thing. Come with me and I'll buy you some chocolate." "Alack, I am forbid to tarry, gentle sir. I need be blythe. Their patience stays upon my coming." "Good-bye, then," said the old gentleman.

"Rest you, merry master," and, dropping a little curtsy, the mite trotted off.

"Bless me, what an extraordinary child!" said the gentleman to a bystander. "Oh, that's nothing," replied the other. "You see, she's the daughter of the heavy tragedian at Morosco's Theatre, and I suppose they talk so much of that kind of lingo in the family that it comes natural to her. Don't hear anything else, you see."—Tit-Bits.

## The Passing of a Nonagenarian.

On Friday, the 15th, the pastor of the M. E. Church was called to take a long drive to Grafton, to the home of the son of the deceased, to speak the last words over the remains of a very aged lady, Mrs. Jemima T. Brooks. She was born in Paris, Maine, April 7, 1812 and died in Grafton, Jan. 13, 1904, being therefore in the ninety-second year of her age. Her maiden name was Buck.

She married Benjamin Brooks who died twenty-nine years ago. Some of her life was spent in the town of Woodstock, Me., but more of it in the town of Grafton. For forty-seven years she has watched the majesty of old Speckled Mountain and Saddleback, and the boisterous winds of Grafton. Notch have rushed and roared thro' all these years and more, but she stood the cold and blast until a few weeks ago added a strain from which the aged body could not recover.

Nearly seventy years ago she joined the Methodist Church, as nearly as can be learned, at Woodstock. Because of distance from a place of worship among her own, she has been deprived for some time of mingling with those of the fold she joined in youth, but her estimable character and loveliness is set forth by the testimonies of neighbors and friends who wept at her casket.

"We all do fade as a leaf," (Isaiah 64: 6) but some fade to become lovelier in their decay; dissolving only to appear in new and grander form in the mansions above. Four children are left to mourn her going away.

As the leaf upon the mountain fades, when touched by Winter's frost; So she faded in life's winter, But in fading, is not lost.

As the leaf, to human vision, Falls to burial and rust; So she passes from our vision, And is committed to the dust.

But the soul is clothed immortal; Cannot perish like the leaf; But is gathered, in the harvest, To Heaven, a ripened sheaf.

## A Prisoner in Her Own House.

Mrs. W. H. Layha, of 1001 Agnes Ave., Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a change for the better, and at this time after using it for two weeks, have no hesitation in saying that I am entirely cured." This remedy is for sale by G. R. Wiley, Bethel; E. L. Tebbets, Lookie Mills; J. W. Bennett, Gilead; H. W. Dennison, West Bethel.

## Eugenie's Jewels.

With reference to the flight of the Empress Eugenie and the document about her jewels, found recently in a cemetery at Beziers, Augustin Filon, the well-known authority, says that the jewels of the empress never left the hands of her treasurer, Mme. Pollet. The documents found in the cemetery quite recently were probably forged by the men in a Madrid prison, about half a dozen in number, who fraudulently obtained money from persons in France by representing themselves to have been selected to convey the jewels of the empress to Spain. These persons wrote to their dupes to say that they had been obliged to hide the jewels when en route, that they were arrested in Madrid for small debts, and that they wanted funds to enable them to leave jail and to return to where they had concealed the property of the empress. M. Filon adds that soon after the arrival of the imperial family at Camden Place, the empress received numerous letters from the dupes. An inquiry was then made, and the hoaxers were found in the Saladero prison at Madrid, where they received the money from their dupes and spent it in feasting.

## Unlucky People.

## HOG-DRESSED CALVES.

Attract the Eye of the Customer, and Bring Much Better Prices.

Farmers having calves to sell can realize the most money for them by slaughtering and sending them to market instead of selling them alive at home. They not only save the middleman's profits, but if the calves are properly dressed they should command as high prices as city-dressed veal, although the latter now sells for from one to four cents per pound more than veals dressed in the country and shipped to the commission merchants. The principal difference is in the appearance, on account of the often slovenly and careless manner of country dressing. The city butchers understand that in order to meet the wants of their customers, the first-class shop butchers, or retailers who are willing to pay the highest prices, the veal must be dressed to attract the eye of a customer. The calf should be of good form and have a firm and solid feel; the flesh white and well set; the kidneys well covered; and the fat not torn, muzzed or bloody, and free from blood or wet inside. The following plain directions for dressing and shipping veals and reasons therefor are made up from an experience of thirty-seven years in handling, dressing and selling calves in the market.

An open shed or building with doors at each end or side, to allow a free current of air and facilitate the cooling and drying as soon as possible, is the best for the purpose. The calf should remain quiet at least two hours before slaughtering. Knock it on the head and hang up evenly by both hind legs, keeping them about fifteen inches apart at the hook joints, leaving the legs on. Cut the throat, neck, head and bone through, leaving the head adhering to the skin. Let it hang until all the blood is thoroughly drained from the veins and flesh; then open the carcass by slitting the belly from near the udder to the breast-

bone. Remove the entrails, paunch, liver or haslet and lights, using great care not to injure or break the kidneys, or muss the fat around them, or get blood inside the carcass. Should any blood get in, remove it by pressing a clean damp cloth wrung out in cold water against the blood. Do not rub or wash it out, or use any water inside at all. Let it hang without handling until it is thoroughly cooled off and the flesh is set, using a stretch-stick to hold open the slit in front and facilitate the cooling and drying. After the animal heat has passed off and the flesh is firm and solid, cut or saw off the legs and leg-skins close to the knee-joints, and the head and head-skin close behind the ears. Attach a tag to the bag-skin and another to the skin in front, the tag showing your address in full; also the address of the party the veal is consigned to. Send a postal to the consignee so that they can hunt it up in case of delay in delivery. It is advisable to ship by express to insure quick delivery.

If the calf is killed immediately after being driven or worried the flesh will be feverish and red or dark colored, and will not set or feel firm. If hung unevenly or by one leg it will dry, cool and get crooked, and have a bad appearance. If handled before it is perfectly cooled the flesh will be soft and flabby and will not keep, or sell for full price. If the kidneys or kidney fat are in bad order this defect will injure the sale. If blood gets inside and it is wet it will ferment and turn sour. Leaving the legs and head on until thoroughly set and cold prevents the skin from drawing up and leaving the neck and legs exposed to the air, which would turn black and give the calf a stale appearance. If parts of the legs, leg-skin, head-skin or ears are left on, the salesman will have to cut them off or make a reduction in the weight, thus causing dissatisfaction to the shipper on account of variations between the shipping and selling weights. By using two tags you prevent trouble in case one is torn off in shipping.

## Keeping the Cows Clean.

The cleaning of cows by using the brush and kerosene, on them, as well as giving them a scrubbing and rinsing with a sprayer, may appear as a waste of labor to those who have never tried the plan, but if the cows were so treated the result would be more milk and butter, as the cows would be more comfortable. It is more important to brush cows than horses, as the dirt from the cows easily finds its way into the milk.—Jersey Hustler.

The smaller the field the more fence required and the more land taken from cultivation. The more oblong the field, the more fence required to inclose a given area; conversely, the nearer a square is the field the less fence is required.
